Building a digital decarbonized circular economy

iPoint

## Our Purpose

Advancing digitalization for sustainable change.

## Our Vision

To be the best partner for fully digitalized life cycles of truly sustainable products.

## Our Mission

To accelerate the transition to the circular economy.

**2001**

20+ years experience in compliance and sustainability

**14**

locations worldwide

**170+**

employees and growing

**250**

global manufacturers among customers

**70,000**

users from 100+ countries

**ISO**

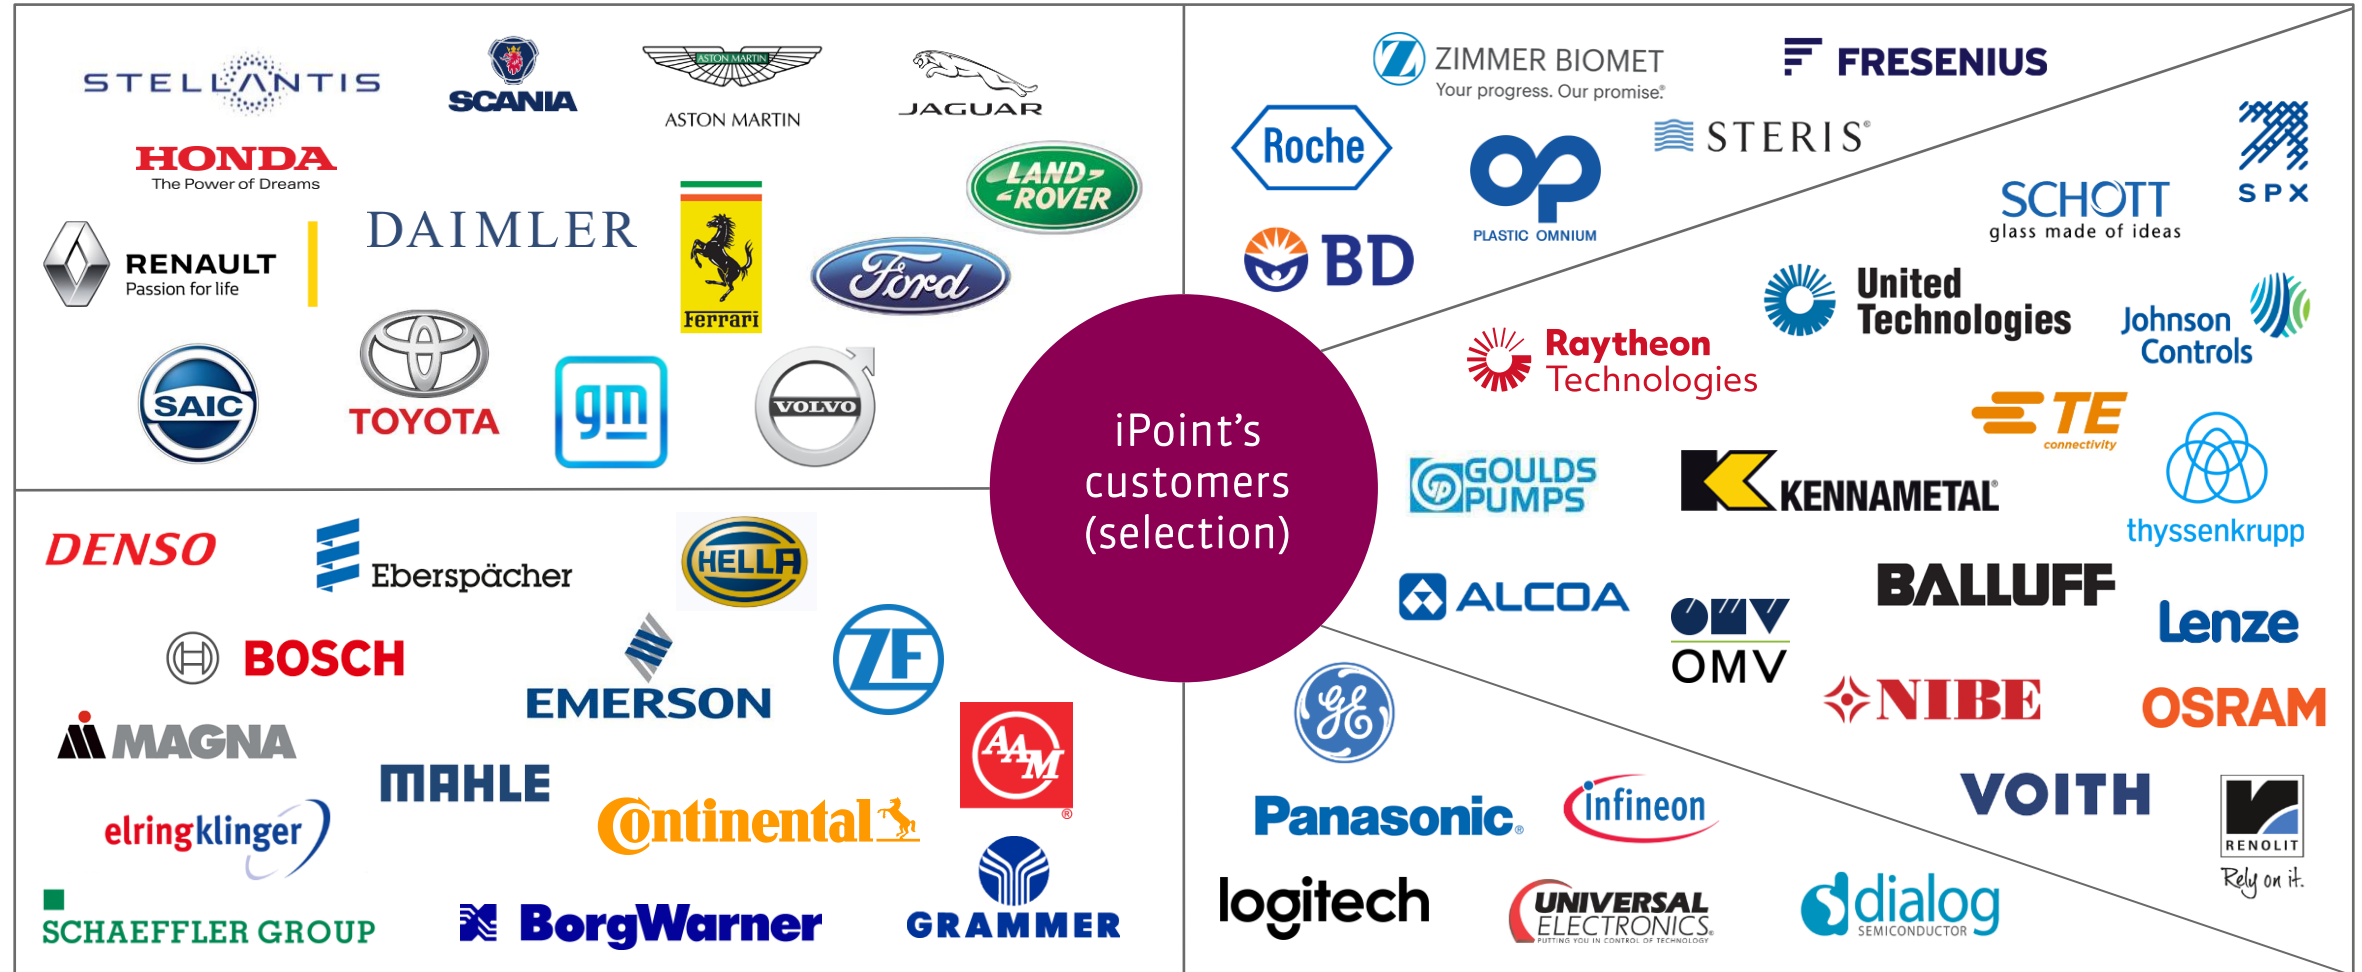

ISO 9001:2015 and ISO/IEC 27001:2013; more than 30 awards

Magna commits to carbon neutrality in global operations by 2030

April 22, 2021

Magna enters a new era in the company's sustainability journey with its announcement to achieve carbon neutrality in its global operations by 2030.

Apple charges forward to 2030 carbon neutral goal, adding 9 gigawatts of clean power and doubling supplier

October 27, 2021

Apple is committed to achieving carbon neutrality in its global operations by 2030. To reach this goal, Apple is investing in clean energy and is doubling its commitment to help its suppliers reach their own carbon neutrality goals.

Osram commits to becoming climate neutral

Osram intends to become climate neutral within ten years. We are fully aware of our responsibility and have set a target to become climate neutral by 2030 as a contribution to a sustainable society. Starting in 2022, we will reduce its carbon footprint to achieve this goal.

explains the measures the company is taking to achieve this.

Protect the climate

As part of our action plan to put us on a path to carbon neutrality by 2050, we are committed to reducing our own carbon footprint and advancing technologies to manufacture products using less resources.

Our target

By 2030, Dow will reduce its net annual carbon emissions by 5 million metric tons versus its 2020 baseline (15% reduction). By 2050, Dow intends to become carbon neutral (Scopes 1+2+3 plus product benefits).

Philips wants its suppliers to get serious about climate change

Companies

Philips Says It is Carbon-Neutral Now

Published on: 10 June 2022

PHILIPS

The health technology company said yesterday that the initiative would be seven times more impactful than Philips' own carbon dioxide emission reductions.

"Over the last few years, we have made major progress in reducing our own greenhouse gas emissions. We have been carbon neutral in our operations since 2020.

Vision & Goals    Benefits

## Carbon footprint rules

A uniform methodology that specifies existing standards and procedures is needed to record and compare carbon data. Catena-X describes this in a carbon-specific set of rules, the "Catena-X Product Carbon Footprint Rulebook."

### Creation of Class Hints

1. Mark the text block that you want to use as classification hint

Name  
SP251-440P

Component  
MBR-CROSS,4TH LWR

Vda  
1.1.2

2. Click the 'Add as Hint' button to apply the selected text.

[+ Add as Hint](#)
